If interested, a registered buyer can request for the seller to put the unsold horse up for re-sale, and if the seller agrees, the horse can be offered again as a re-sale horse as long as it is in the same sale on the same day. A buyer wishing to request a re-sale should, after reaching an agreement with the seller of the horse on the starting bidding price for the re-sale, promptly notify the sale holder of the request. As re-sale horses will be offered during the regular course of the sale, buyers are asked to refer to announcements by the sale holder for information on the timing of re-sales. Any and all registered buyers are allowed to join the bidding on a re-sale horse.

In the event an insurance payment is made, it will first be received by the Sale Holder, who will then send the payment to the successful bidder of the horse.

⇒ Please refer to Article 22 and Appendix 3 in the Conditions of Sale

9. Consumption Tax (Tax Refund Procedure for Foreign Buyers)

In Japan, a 10% consumption tax is applicable on sales and service fees, including purchase of horses at sales. As such, buyers of horses at sales in Japan will be asked to pay 10% tax in addition to the price of the horse. However, there is a way to apply for a refund of the consumption tax if the horse was purchased to be exported out of Japan. The refund is also applicable to consumption tax paid on boarding fees and export costs of the horse to be exported. The following is a brief explanation of the consumption tax refund procedure:

- 1) The buyer needs to submit to the Japanese tax authorities a Notification of Taxable Operation Form (“Form 1”) to declare himself/herself as a taxable

entity in Japan. (The buyer first needs to be a taxable entity in order to receive a tax refund.)

- 2) The buyer also needs to submit a Notification of Tax Agent Form ("Form 9") appointing someone as his/her tax agent in Japan (someone who can represent the buyer on tax-related matters in Japan).
- 3) These forms must be signed by the buyer and will have to be submitted by the end of the year the buyer first purchases horses in Japan. (The name of the buyer appearing on these forms should coincide with the name of the buyer of the horse at the sale.)
- 4) Once the above forms have been submitted, each year, the tax agent will need to obtain the necessary tax exemption application form from the tax authorities and submit the completed form along with records of the buyer's expenditures for the past year roughly within the two month period following the end of said year. (Such records will include invoices and purchase agreements for horses purchased, invoices for boarding fees and export costs and records of payment received for these costs.)
- 5) It will take several months for the application to be reviewed and approved by the tax authorities. Once the refund has been approved, the tax authorities will send the refund amount to the designated account of the tax agent. The buyer will receive the refund not directly, but through the tax agent.
